Dear Chuck:

Thank you for your letter of November 12 and especially for your check of \$10. It will help a lot! I paraphrased your letter in the latest issue of FTM (enclosed).

I also received a letter from Joe, which I recently answered, telling him what a lucky devil he is to have found you.

The Advocate has commissioned me to do an article for them on the female-to-gay male transsexual, due Feb. 15. I'm really happy - have ALWAYS wanted to do such an article for them. After that they want another article from me on FTM's from the historical past, which I'll just glean from my Information for the Female-to-Male booklet.

Last week I met with Dr. Ira Pauly at the Univ. of Nevada in Reno for the second time. He videotaped an interview with me, which he will show at the Annual Mtg of the American Psychiatric Assn in May, entitled "Female-to-Gay Male Transsexualism." Dr. Eli Coleman of the Univ. of Minnesota has published his case study on me in the Journal of Psychology & Human Sexuality, entitled "Heterosexual Prior to Sex Reassignment - Homosexual Afterwards: A Case Study of a Female-to-Male Transsexual." So hopefully this will now be a recognized condition and we won't have to hear anymore that there's no such thing as a FTM gay man.

I plan to visit family/friends in Milwaukee sometime this year, so maybe we'll get a chance to meet then. I'll keep you informed.

Regards,

Lou Sullivan
