QAF

What's your gender?

When did you decide that?

How much say do you have in your gender?

Is there anything about your gender or gender role that you don't like, or that gets in your way?

Are there one or two qualities about another gender that are appealing to you, enough so that you'd like to incorporate those qualities into your daily life?

What would happen to your life if you did that?

What would your gender be then?

How do you think people would respond to you?

How would you feel if they did that?

A long, thin rainbow flag is visible on the ground, stretching across a street and leading towards a large crowd of people. The text is overlaid on the top half of the image.
