Dear Bet:

Thank you for the copy of the article [redacted] found regarding the possible female-to-gay male. The whole thing sounds suspicious to me, too! It's little gems like these hidden in history that we need to preserve for future female-to-males who think they're "the only one."

Thanks, too, for the photos you sent of you and [redacted]. What a doll she is! I could send copies of your old letters crying about how you don't think you'll ever find anyone... but life has much more in store for us.

I've been working on editing my diaries, to get them into publishable form. My health has been fair; I have several hours a day to accomplish something, so I'm satisfied.

I'm off to Seattle this weekend to attend their F-M Gathering, just for fun. Keep in touch, Bet!

Regards,

Lou
