

# "The Lord is my shepherd and he knows I'm gay"

(Continued from Page 1)  
 The L.A. Times recently gave a few pages of space to the MCC and Perry, and as a result of the national publicity, he has been speaking at such places as the Palm Springs Chamber of Commerce, Beverly Hills, et cetera. Church attendance has increased at the services, which are held each Sunday at the Encore Theater in Hollywood. Checks and cash arrive daily from all the states of the nation. On one Sunday alone, \$10,000 was reportedly collected from the members for the build-

to realize a fraction of its potential. Some members of the MCC are there, and are quick to come to Perry's defense when non-religious Gays refer to Perry's church as a "rabbit warren," "cop-out" and "counter-revolutionary." Gays from San Francisco and San Diego are there. More long-hairs are there. More sandaled feet. A lot less money. Some never say anything, simply staring rapidly during the heated discussions as goals and proposals and commitments are hassled and hacked into workable actions.

has called you faggot, pervert, that has locked you up and beaten you and killed you, queer cocksucker that you are, and made you hide, hide, hide in fear of exposure and condemnation—the ones who have blackmailed and exploited you and bought you for less than a dollar and sell you the privilege of going into a private club IF you've got the admission price and if you obey all the rules and IF you don't cause any trouble you may be allowed the forbidden pleasure of finding someone you can sleep with and/or love, but remember this, fag, don't hijack a plane to Cuba, there are NO homosexuals in communist countries, it is peculiar to capitalist nations, and only this planet. Fairies have no place in the NEW ORDER. Faggot, go out and kill, get in drag and wear grenades for tits, dip your fingernails in curare and carry a stiletto in your purse.

You are being sucked dry by the mafia, the establishment, the Gay community, of whatever it is you have to offer, join the army and if you're discovered you'll get a bad discharge at least, if you're black the Panthers don't want you, no she-queens and bull-daggers allowed, and just try to keep your thing going no matter what it is after you LIBERATE yourself from whatever closet you may be in and tell all your friends and enemies you are "Gay"—sounds better than "queer, homosexual, or homophile"—or should we take another vote on which word to use? And you really sick faggots, you drag queens, anyone who would wear woman's clothes is really sick, just look at my beautiful cock, do you know any way I can make it longer and juicier, you sick fucking queens go out and blow up the Pentagon or something. Liberate yourselves, Gay faggots, in the name of Jesus, Marx, Allen Ginsberg and Sudden-ly Last Summer, don't matter if you've got a hormonal or glandular problem and you're growing tits, doesn't count during revolutions. Follow me and you'll be a MAN and real men give me a hard-on .....

The fuhrers are there, of course, still hung up in the same cocksputting trip that has caused every war on this planet. And the ones who know how to smile and flutter their eyelashes at the right time, using their "woman's intuition," don't mind being called Whores for Peace.

Gay Liberation. Ideally, if the Gay community got itself together, ten thousand people would show up at every Gay march, and more Gays would join. The queens, the lesbians, the transsexuals, the Gay GIs in uniform would march, the Gay bars would lower prices, the Gay dentists and doctors would donate their services to other Gays, the Gay bikers and leather freaks would use their whips and chains on the anti-homosexual straights instead of themselves and Gay organizations that are becoming wealthy would set up bail fund and other services for Gays—and Black Panther imitations calling themselves Gay Guerrillas, Lace Leopards and other imaginative names would radicalize all the other Gays—for what it's worth,

and for those who don't already know, it's happening. L.A. does not have a catalyzing incident like the Christopher Street riots in New York, and it doesn't have the 1985 San Francisco number—and it may never have anything resembling these things. L.A. does have tens of thousands of

ing fund. It is not easy for a group of homosexuals, even a homosexual minister, to find a church, although they have ten or twenty thousand cash to secure a piece of real estate, but Perry is certain that a church will become available.

Perry delivers his sermons in the style of a deep south revivalist preacher, and one of his favorite slogans is "The Lord is My Shepherd and He knows I'm Gay."

On January 11, Perry will lead a march through Hollywood at six in the evening, a candlelight procession, and he hopes hundreds of Gays will march with him. Interested persons can reach Liz (and the MCC) at 660-0050.

### WHY DOES THE HEATHEN RAGE?

About six miles away, in the San Fernando Valley, another Gay organization exists. A Gay Liberation Front, Los Angeles branch. The building is where the Gay publication, Tangents, is published, and is also the home of the Homosexual Information Center. It (the GLFLA) is only two weeks old, and like a new-born baby has yet

Blacks come who are also Gay, and they've had it, they've put up with this system long enough, and tell everyone so, and Gays who voted for Goldwater walk out snarling. Tears are shed. Old-line anti-war activists are there, and you can almost touch their idealism with your fingers. Some come there looking for a fuhrer, who will stand up and flash his eyes and raise his fist and tell them exactly what to do and how, tell them its OK to kill now, release all of the hostility against the people and society that

that he gave a speech at Case Western Reserve, and we saw it on a film. The speech was SO liberal, SO wishy-washy, so AWFUL, that when it was finished showing to the jury Rennie got up and apologized to the other defendants.

We're down to me, right?... I'm supposed to have said that if you took ammonia and soap flakes and put them together, it'd be good to use against the police. To this day, I can't figure out what the hell you do with a soapy ammonia solution... Tom Hayden will go down in history for having given revolutionary speeches... it's really embarrassing to go down in history as the mastermind of the stink-bomb plot. It doesn't do much for your ego, I'll tell you that.

This is the testimony: the story goes that I came to Chicago and I wanted to create an incident in hotels. Everybody here knows that I teach chemistry, that I have a PhD in chemistry? I DO know how to make a real good stink bomb. It really is pretty easy. But the story goes that I didn't know how to do it. But I remember that when I was six years old my mother used a hair remover that was smelly. So I thought, "Aha! That's what I'll use." So I went to Walgreen Drug Stores on State Street

and I walked up to a lady attendant and I said I'd like to buy some hair remover, do you mind if I smell it? So for half an hour I smelled different hair removers, until the lady became suspicious. Why would a grown man come into a drug store and smell hair removers for half an hour? This was real. This is what they said. After half an hour the lady attendant becomes suspicious, so I flee the scene. Without achieving my purpose. Of having bought the ... special...stinky... hair remover. Then chemistry comes back to me, and I say, "Buteric acid." So I go to Central Scientific Company and sign my name and buy two gallons of buteric acid... That's my charge.

We think the future of this Movement is in that courtroom, not by the individuals, but symbolically speaking. We need brothers and sisters who will join us in the struggle to create the change that's going to happen in the next ten years. What we're going to do at the end of the trial is that when their jury is out, our jury will be out. We're going to set up live radio communications in every campus, in every church, in every community that we can. Movement people will be coming to Chicago from all around. Defendants will be there. Lawyers will be there.

While the trial is out, two things will happen; people in local areas can use that as a focus for teach-ins and rallies and we will use that to talk about the issues that actually brought us to Chicago in the first place across the country. At that point we want to put the government on trial in a sense. When the verdict of guilty is brought in against us, then we hope that the people of America will bring in a verdict of guilty against the United States government.

I don't expect that verdict to be any more fair than ours is going to be. We're not going to give them a chance to answer because they've been answering for the last ten years. When that jury is out, you, our jury, will be out. When their verdict comes in, then our verdict must come in. I predict that the government will be found guilty of its policies. When their verdict comes in, we must then carry out the sentence, as they will carry out the sentence against us. In fact, we are calling for days of revolutionary commitment at the end of the trial, the implementation of your verdict, the beginning of the next ten years.

## Church for homosexuals

Gays, many of them simply doing their thing in private.

And a lot of Gay heads who are too busy surviving to get involved with something that could make their chance for survival more difficult. Apologetic Gays who would get involved except they'd lose jobs, status, and perhaps their lovers, not to mention security clearances and votes and fans—if they told the public they were Gay. And a few who don't care what the trip is as long as it has hard-on value, as long as they gets their rocks off and those who really believe Gay is Good and are willing to die for the Cause.

Gather Yourselves Together  
It is apparent that the Gay Movement will succeed in many areas.

The fact that a Gay Liberation Front has become a reality in Los Angeles alone is a tremendous success. Unity between the more radical and the conservative Gay organizations in L.A. is growing.

The GLFLA, at the January 4 meeting, proposed these actions:

1) Request a Hollywood restaurant to remove an offensive sign which states "Fagots keep out"

(Rev. Perry also feels this sign should be removed and will help organize a demonstration if necessary)

2) Support of Leo Laurence's struggle for re-instatement at KGO-TV from which he was removed allegedly because of his activities as a Gay radical.

3) Create alternatives to the

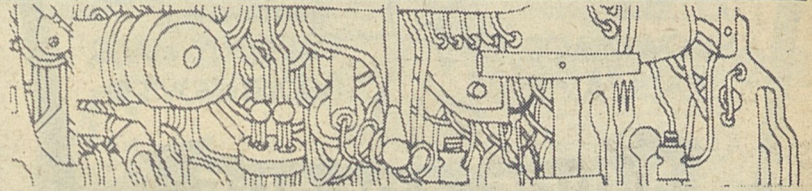

Gay bars and theaters in Los Angeles.

4) Send delegates to the Peace and Freedom Party convention in Long Beach and other political conventions.

5) Develop a protective service for the Gay community by exposing undercover vice officers through the Gay and underground press and other protective forms.

6) Establish formal goals and overall objectives for GLFLA to be voted upon at the next meeting, January 11, 4 p.m.

GLFLA is presently in need of volunteers, money, PA equipment, building space, typewriters, et cetera. Interested persons should call 484-1094.

insanity induced by five generations of government lying. Man has not, as yet, advanced far enough to set up a world tribunal (community of man) to try war criminals. And so long as nation states endure with power (not authority) to make war, no such tribunal is possible.
