Dear Lou:

Hello! How are you? We've been enjoying your newsletter and also offer congratulations on the publication of your book.

Have a favor to ask, if you have the time. Doctor's insurance company needs any and all information we can give them on the genitoplasty procedure that he performs. They suggested that letters from patients, after they have had the procedure, would be useful. As you know, people are so uneducated about gender dysphoria and the necessary surgical procedures involved. So if you can possibly jot off a quick note saying you've had the procedure and consequent feelings about it, it would be greatly appreciated.

Thanks again and good luck on all your endeavors!

Fondly,
